

Manufacturing Career Day and Open House Tuesday, May 21, 2019, starting at 10:00 AM Contact Us Today to Reserve Your Spot

SDP/SI

Established 1950

SDP/SI develops comprehensive mechanical solutions for a wide range of applications. We engineer and manufacture precision gears, mechanical components, and complex assemblies for the world's leaders in medical, aerospace, defense and industrial markets.

We are dedicated to producing high-quality work, on time and to our customers' requirements. To achieve these goals we rely on our employees.

As a result of our continued success we are always looking for long-term and career-minded employees, many of which have made a life-long career at SDP/SI. We offer on-the-job training and career advancement opportunities as well as tuition reimbursement to help you succeed.
